

PRE-SEED INVESTOR OVERVIEW · OCTOBER 2026

Six licenses. One rhythm.

Automated music compliance for hospitality. Harmonis turns six annual music-licensing invoices into predictable, automated payments, with zero manager training.

Live at harmonis.io

Savren Dobbs, CEO · Rick Dobbs, Co-Founder & VP Sales & Marketing

Six licenses. One rhythm.

Every US **PRO**. One regular payment.

The US has six performing-rights organizations — ASCAP, BMI, SESAC, GMR, AllTrack, and Pro Music Rights — and any of them can bill you on their own schedule. We cover every one, pay them upfront, then you pay us one regular payment — weekly or monthly, your choice.

Same model that fixed commercial insurance: someone pays the lump sum so you don't have to. We just did it for music licensing.

And once you're set up, you're done thinking about it. We track every renewal and rate change, and if anything moves we tell you first. No surprise letters, no chasing agencies yourself, no missed deadline that turns into a fine.

Find out where you stand. 3 questions.

Real numbers. No email required.

1. Do you host live bands, DJs, or karaoke?

Yes — at least sometimes

No — background only

2. Do you stream from a personal Spotify or Apple Music account?

Yes

No / business plan

3. What's your occupancy capacity?

150

Show me where I stand

YOUR RISK SCORE

93 / 100

Very high risk

Low Moderate High Very high

WHAT DROVE YOUR SCORE

Hosts live music, DJs, or karaoke	+35
Streams from a personal account (commercial-use violation)	+30
Capacity 101-250	+28

Personal Spotify and Apple Music subscriptions explicitly forbid commercial use. Every track played at your venue is a separate copyright violation — PROs treat that as the easiest possible enforcement target.

Get your full quote →

harmonis.io today: the three-question risk check every venue starts with.

THE PROBLEM

Music drives the check. Paying for it is stuck in the past.

Music drives vibe. Vibe drives dwell time. Dwell time drives check size.
Yet hospitality groups still pay for music the old way: fragmented,
reactive and risky.

WHAT A VENUE OWES THE SIX PROS EACH YEAR³**\$1.5–2K**

Small bar / cafe

\$3–3.8K

Mid-size, DJ nights

\$8–13K+

Live music, 250+ cap

Six PRO relationships

ASCAP, BMI, SESAC, GMR, AllTrack and PMR
each send their own invoices, rate tiers and
renewal dates, for every location.

Unpredictable lump sums

Annual invoices land at arbitrary times. A
surprise \$15,000 licensing bill in Q4 wrecks a
group's cash-flow forecast.¹

Constant audit exposure

PRO reps walk in on a Friday night. Willful
infringement can carry statutory damages up to
\$150,000 per song.²

Harmonis: six licenses, one predictable payment, and proof of compliance at every location.

¹ Example from the Harmonis Executive Summary. ² 17 U.S.C. §504(c)(2): up to \$150,000 per work for willful infringement, at a court's discretion; actual awards vary.

³ Per location, from published 2026 rate schedules as shown on harmonis.io/pricing. GMR and PMR publish no bar schedule and are estimated.

WHAT HARMONIS IS

Infrastructure, not another dashboard.

TRADITIONAL LICENSING

6 separate PRO relationships

Unpredictable annual lump sums

10+ hours a year of back-office admin

Constant audit exposure

THE HARMONIS STANDARD

1 automated platform**Daily micro-settlements, bank-linked****Zero ongoing administrative drag****Continuous compliance evidence**

Zero manager training. No apps and no new logins for store managers.

Cash-flow smoothing. Six annual obligations become small, predictable payments.¹

Audit protection. Every payment adds to a running record of compliance across all six PROs.

Under 15 minutes per new location. Connect the account, set the capacity, walk away.

Comparison and claims as stated in the Harmonis Executive Summary.

¹ Bank-linked daily settlement is built in sandbox and goes live with the Plaid work funded by the raise (slide 14). \$4.99/month + 10% pricing.

HOW IT WORKS

Calculated daily. Collected weekly. Proven continuously.

EVERY NIGHT**Daily pacing ledger**

Each night the engine computes the venue's share for all six PROs and logs a timestamped split. No money moves, so no fees.

SUNDAY 6 PM**Advance notice**

The owner's portal shows a live ledger. Sunday evening a text and email confirm the amount of Monday's pull.

MONDAY**One weekly debit**

The week's entries become a single ACH debit through Modern Treasury: one fee instead of seven, under 0.5% of volume.¹

AUTOMATIC**Exceptions handled**

A returned payment (R01, R08) pauses that venue's PRO payouts and starts automated dunning by text.

\$4.12 a day
calculated, never charged

× 7 days = \$28.84
one Monday pull, noticed in advance

Separate evidence
for what's owed, collected and paid to each PRO

235

California venues found by the lead engine

Six-PRO quote engine pricing ASCAP, BMI, SESAC, GMR, AllTrack and PMR

Customer portal with a proof-of-coverage certificate and public QR verification

Multi-location accounts so a group adds venue #12 from the same login

Online signing with Power of Attorney, Letters of Agency and an audit trail

Pay-as-you-sell weekly plan sized from bank deposits¹

Lead engine on California liquor-license data, scored and queued for outreach

Partner and landlord program with referral links and commission tracking

PRO dispute intake plus an automatic scan for under-reported music use

Operator console: renewals, dunning, PRO payments, rate cards, audit log

Error alerting that emails the team the moment a customer hits a problem

PRODUCT WALKTHROUGH · 1 OF 4

Three questions to a real number.

Six licenses. One rhythm.

Every US PRO. One regular payment.

The US has six performing-rights organizations — ASCAP, BMI, SESAC, GMR, AllTrack, and Pro Music Rights — and any of them can bill you on their own schedule. We cover every one, pay them upfront, then you pay us one regular payment — weekly or monthly, your choice.

Same model that fixed commercial insurance: someone pays the lump sum so you don't have to. We just did it for music licensing.

And once you're set up, you're done thinking about it. We track every renewal and rate change, and if anything moves we tell you first. No surprise letters, no chasing agencies yourself, no missed deadline that turns into a fine.

Find out where you stand. 3 questions.

Real numbers. No email required.

- Do you host live bands, DJs, or karaoke?

Yes — at least sometimes

No — background only
- Do you stream from a personal Spotify or Apple Music account?

Yes

No / business plan
- What's your occupancy capacity?

Show me where I stand

YOUR RISK SCORE

93 / 100

Very high risk

Low Moderate High Very high

WHAT DROVE YOUR SCORE

Hosts live music, DJs, or karaoke	+35
Streams from a personal account (commercial-use violation)	+30
Capacity 101-250	+28

Personal Spotify and Apple Music subscriptions explicitly forbid commercial use. Every track played at your venue is a separate copyright violation — PROs treat that as the easiest possible enforcement target.

harmonis.io · homepage risk check

The front door. Live music? Personal Spotify? Capacity? The answers produce a risk score and the reasons behind it.

Plain English. No PRO jargon. The owner sees what drives the number and gets a full six-PRO quote from there.

Built for panic moments. Search pages for 'got a BMI letter' and 32 local markets route owners straight here.

PRODUCT WALKTHROUGH · 2 OF 4

When a PRO rep walks in on a Friday night.

harmonis.io/dashboard · certificate

What every location gets

One certificate for six PROs

Public verify link + QR

Renewals tracked automatically

Every PRO contact logged

The manager shows this. One certificate covering all six organizations, with a QR code anyone can scan to verify.

Agency on file. The certificate shows the Power of Attorney that lets Harmonis deal with every PRO for the venue.

Self-service. Venues update details mid-year (stopped live music, added a dance floor) and pricing follows.

harmonis.io/admin · lead pipeline (business names blurred)

235

newly licensed California venues captured automatically since April

Every new liquor license is a venue now on the PROs' radar. The engine pulls California ABC data daily, scores each venue and queues it.

Direct mail is ready. Three postcards (cash flow, less paperwork, one payment) and a seven-step email sequence are staged.¹

Source: California ABC license data captured by Harmonis between April 17 and October 3, 2026 (newest record found October 3).

¹ 1 Postcards in the Harmonis Marketing folder (V4). Mail and email outreach launch with the go-to-market budget (slide 14).

PRODUCT WALKTHROUGH · 4 OF 4

Built for the PROs and the partners venues trust.

Report a licensing discrepancy

For Performing Rights Organizations: if a venue Harmonis represents appears to be using music beyond what its coverage reflects (for example, live music or DJ nights not on file), report it here. Harmonis reviews every report, verifies directly with the venue, and corrects the coverage and billing. We handle the venue relationship end to end.

Your organization *

Select a PRO

Venue name *

The venue's business name

We match this against our records internally.

FOR LANDLORDS & PROPERTY MANAGERS

Turn music-licensing risk into a tenant amenity.

Every bar and restaurant in your buildings owes \$2,000–\$12,000+ a year to the music licensing organizations — and most are out of compliance without knowing it. Harmonis makes your F&B tenants compliant and painless to bill, so you lower lease risk and add real value to every space.

Partner with us

Why it works for your portfolio

De-risk the lease

Unlicensed music is a real liability — PRO lawsuits and four-figure back-fees hit F&B tenants every year. A covered tenant is a lower-risk tenant.

A tenant amenity that retains

Hand tenants a problem solved on day one. It differentiates your spaces and is one more reason a good operator renews.

Earn referral commission

You earn on every tenant you bring on — recurring, for as long as they stay covered. One introduction, ongoing income.

Zero lift for you

You make the intro; Harmonis handles all six Performing Rights Organizations, the paperwork, and the billing. Nothing lands back on your desk.

PRO dispute desk. If a PRO thinks a venue under-reports its music, it files here. Harmonis verifies, re-prices and keeps the venue relationship.

Honest-usage controls. Venues attest to their usage at signing, and an automatic scan flags venues whose profile suggests live music or DJs.

Partner channel. Landlords, accountants and insurance brokers refer tenants and clients, tracked in a partner portal with commission reporting.

HOW IT MAKES MONEY

\$4.99 a month plus 10% of the licensing bill.

PRICING

\$4.99/month per location

+ **10%** of the venue's annual PRO bill

The licensing money passes through to the PROs.

~\$439

revenue per location per year¹

~7.3x

lifetime value to acquisition cost¹

~5.5 mo

to earn back acquisition cost¹

\$3,795

average annual PRO bill per location¹

What real venues owe the licensing companies*

These are the annual amounts venues owe the six Performing Rights Organizations directly — from their actual 2026 rate schedules. Your exact number depends on your venue.

Small bar / cafe

Under 100 cap, background music only

\$1,500–2,000/yr owed*

Mid-size restaurant

100–250 cap, DJ nights + background music

\$3,000–3,800/yr owed*

Large venue / live music

250+ cap, live bands, cover charge

\$8,000–13,000+/yr owed*

What venues owe the PROs directly (live on harmonis.io). Harmonis earns its fee on top, so revenue grows with every location a group adds and with every PRO rate increase.

Pricing per the Harmonis Executive Summary. 1 Derived: \$3,795 average PRO bill from docs/financial-projections/model.py (60/30/10 small/mid/large mix, four largest PROs) × 10% + \$4.99 × 12; assumes \$200 acquisition cost and 2.5% monthly churn (lifetime value = monthly revenue ÷ churn; payback = cost ÷ monthly revenue). Before payment-processing costs.

MARKET

Roughly 300,000 U.S. bars and restaurants. California first.

297,540

U.S. bars and full-service restaurants¹

~\$1.1B

in annual PRO licensing those venues would route through Harmonis²

~\$131M

annual Harmonis fee pool at \$4.99/mo + 10%²

Beachhead: Northern California

California has 34,653 bars and full-service restaurants, about \$15M a year in fees at this pricing.¹ ² Multi-unit groups first.

Built for multi-unit groups

A new location onboards in under 15 minutes. Each one adds revenue with no new manager training.

Built to scale nationally

Rate engine, local search pages and lead engine are state-agnostic. New states need data feeds and pages, not new software.

¹ U.S. Census Bureau, County Business Patterns 2022: drinking places (NAICS 722410) 40,258 + full-service restaurants (722511) 257,282. California: 3,279 + 31,374 = 34,653.

² Derived: establishment count × modeled \$3,795 average PRO bill, or × ~\$439 revenue per location. Upper bound; not every venue plays music or needs all six licenses.

GO-TO-MARKET

Reach owners when they need us. No cold calls.

READY**Direct mail to new licensees**

The lead engine catches venues the day their license is issued; a postcard and personal page reach the owner.

SALES-LED**Multi-unit operators**

Fifteen-minute conversations with hospitality groups: one platform for every location, no manager training.

LIVE**Panic searches**

Pages for 'got a BMI letter', 'is ASCAP a scam' and 32 local markets meet owners when they're searching.

PORTAL LIVE**Partners**

Accountants, insurance brokers, landlords and POS resellers refer clients for a revenue share.

THREE POSTCARDS, READY TO MAIL

We pay upfront. You pay over time.

Cash flow

Run your venue. We'll handle the music licensing.

Less paperwork

Six music licenses. One payment.

One payment

TEAM

The people behind Harmonis.
